Tank Master™

ULTRAVIOLET LIQUID STORAGE SANITIZER

Tank Master™ Ultraviolet Liquid Storage Sanitizer

- Disinfects the air space and surfaces above the

liquid, and the liquid contents.

- Irradiates contents with germicidal ultraviolet rays, without the use of heat or chemicals.
- Germicidal UV Lamp (10,000 hour rated effective life)
- Quick Lamp Change and Fused Quartz Sleeve
- Design allows most models to be mounted vertically or horizontally into the storage tank
- Can be either mounted into the storage tank (submerged in the liquid contents) or suspended vertically from the top of the storage tank (partially immersed in the liquid contents).
- State-of-the-Art Electronic Ballast

Chat now
