

Sold the Boat SALE

In February 2014 we parted with our Cruising Yacht that we had for almost a decade. Now we have a pile of spares and gear we thought we might use, but never did. It's time to clear out the marine hoardings.

This **15 page** list is almost complete, we are most of the way through the gear, but still have a few more things to add in time. Though we prefer to hand the gear over directly, we can post most items if you are unable to collect it yourself. (see last page for details)

ICE CHEST – 60 lt – FROSTY – TOUGH POLY CONSTRUCTION \$95

In excellent condition, with stainless catches. Floats, tough, thermally efficient. Made by “Wild Country”.

Dimensions: W 800mm x D 400mm x H 360mm

ANCHOR LOCKER HATCH – STAINLESS & TEAK \$40

This was the original hatch on our yacht. It is very heavily constructed from 316 stainless, welded on all seams. Over the top is fastened teak strips that have been painted but could be stripped back to make a lovely teak cover. It has a chain hole and originally had an anchor winch mounted on top. The photo to the left shows the underside where the SS work is revealed.

Measures as you look at the photo – 545mm high, across lower 770mm, across upper 350mm. Thickness – stands above deck 85mm. Weight 11kg

SAILS – MAINSAILS - separate list available.

The sails come off a variety of vessels & many would suite monohulls or multihulls. The Mainsails are in sizes to fit 30ft through to 45ft vessels. High aspect, Cruising, etc, etc.

I have made a pdf spreadsheet list of all the sails we have available. This can be forwarded by email, so contact me to get a copy.

SAILS – HEADSAILS / GENOA / JIBS - separate list available.

The sails come off a variety of vessels & many would suite monohulls or multihulls. The Headsails are in sizes to fit 30ft through to 45ft vessels.

I have made a pdf spreadsheet list of all the sails we have available. This can be forwarded by email, so contact me to get a copy.

GAME FISHING RODS

Fenwick USA – IGFA 30lb class. 7 x Aftco roller runners, highest quality rig. Metal reel holder and gimbal. Removable butt. Total length 2030mm, reel to tip 1630mm. Suit a full on Game reel. **\$130**

MT9120 Custom by Pro-Gress in Coffs Harbour. Longer rod at 2650mm with an Aftoc roller tip plus High Speed runners below that. A good multi function boat rod for overhead or game reels. **\$55**

Custom – Light rig made from a FG bland and 5 x roller runners (not Aftco). Measures 1870 overall. Good for a light overhead reel. **\$40**

GAME FISHING REEL – DAIWA SEALINE 300H \$80

As New – hardly touched the water. Suit a new reel buyer. Excellent quality & will give reliable service unlike the cheap Chinese units on the market.

Ideal reel for trolling from the back of a cruising yacht. I also have a rod that suits the reel.

Weight 766gm – With original box.

FISHING REEL – ALVEY EASY CAST 500B-C \$35

Excellent condition. Aussie made from tough composite materials, these make a great general purpose boat reel. The reek spool will twist 90 degrees to give a side cast action for long casting. This unit has a star drag mechanism & a big handle for hauling in the fish.

Weight 463gm.

12V KETTLE / JUG, NEW \$10

Plugs into a cig lighter socket in the boat or car. Heats enough water for one big cup or two regular cups.

Weight 600gm.

SHAFT SAVER – FLEXIBLE COUPLING \$40

This was removed from our 35' yacht when we did a motor swap. It had been coupled up to a 30hp marine diesel, but should fit a range of sizes.

Diagonal Spacing between bolt holes 100mm. Diameter of Flange 145mm.

Weight 805gm, with the original bolts 1200gm.

BENELEC ANTENNA BASE – MULTIDIRECTIONAL \$12

A used but in good condition antenna base. Made of plastic with SS bolts. Would suit a variety of antenna where the cable comes out the side and not through the base.

Weight 332gm.

ALLOY & PLASTIC BOARDING LADDER \$25

1200mm high x ~350 wide, with 4 non slip plastic steps on an alloy frame. Very lightweight & has a hook on top for going over the gunnel's of your boat. In very good condition. Folds flat for storage.

Weight: 1.75kg

WHEELPILOT / AUTO PILOT – NAVICO (SIMRAD) \$80

Navico WP4000, 12V - It has most of the bits you need, but needs someone with a bit of electrical knowledge to get it going. There is no corrosion inside either the control or servo unit. When put on a battery the display flashes the cursor, but I can not get it to do anything beyond that. Sold as is. Weight 2.7kg.

It has the servo, control unit, drive ring for the steering wheel, a belt that goes between the servo and the steering wheel, plus a tensioner for the belt. The latter spare parts alone are worth well more than the asking price.

LIFE RING \$10

Old Horse Shoe style, lost its colour on the cover but still just as buoyant. Good for a spare, or for someone who has to have one. 650Mm wide x 500mm high.

HEADER TANK, ALL STAINLESS, FUEL OR WATER \$50

All 316 stainless construction, has two outlets on the bottom and a filling flange on the top. Perfect as a fuel feed for Marine stoves, a small diesel tank or for water. Could be pressurised for stove fuel use.

Dimensions: 100mm diameter x 400mm long. Weight: 2063gm

SOLAR PANEL – 95 WATT MONO-CRYSTALLINE – NEW \$130

Alloy frame, Bypass diodes, Impact resistant tempered glass cover.

- Size 1200 X 540 X 35 mm Weight 8.5Kg
- Max Power Voltage - 18.7V Max Power Current -5.3A
- Open Circuit Voltage - 22.2V Short Circuit Current - 5.8A
- Module Efficiency 17.3% Number of Cells - 36
- Tolerance Wattage + 0-10W
- Cables Length ~900mm

SOLAR PANEL – 44 WATT SOLAREX – USED \$60

Alloy frame, Made in Australia by Solarex. Well used but built to last.

Size 800mm X 400mm X 25 mm

SEWER HOLDING BLADDER TANK – NEW \$120

100lt black water tank, made from flexible reinforced laminates. It can be located in bilge cavities or fit into many hard to get to places in a vessel. Standard 1.5” (38mm) openings x 2 & a 20mm vent opening. Black in colour with strong stainless attachment points around tank for securing in a variety of locations.

The brand Float-Pac is now called Flexi Tank. Cost for a new tank is \$209.

730mm x 1060mm when flat. Weight: 2.2kg.

ANCHOR WINCH – STAINLESS & POLYCARBONATE \$200

Manual winch with handle. Has a unique chain / rope length counter on top so you can see how much you have out and have to pull in. The current capstan takes 8mm short link or it's imperial equivalent.

The gearbox inside has been serviced and is in excellent condition. The poly carb base is in reasonable condition. It is a split shell construction & an new gasket was put in after the service. It has four SS bolts insitu for mounting. Weight 10kg.

Has a deck plate with a chain holder device.

ALL STAINLESS BALL VALVE 1", FULLY SERVICABLE \$50

Bombproof valve for below waterline situations in a vessel where you do not want anything to go wrong. It is also lockable with a small padlock.

Can be fully serviced, even insitu (plug the through hull fitting beforehand).

So many boats sink, due to faulty or failing through hulls fittings, hoses and sea cocks.

There are cheaper versions of 316 valves but these are the premium product.

Weight 1050gm

NEW – RONSTAN BLOCK – RF69 S \$30

This is a X Heavy Duty block for serious offshore use. It is of Stainless construction and takes wire rope or dynex type kevlar fibre ropes.

The alloy sheave is 69mm diameter. Weight 490gm

JABSCO TOILET / HEAD SERVICE KIT, PARTIAL \$10

I have an incomplete service kit for a Jabsco Heads 29090-29120. Some parts have been used in the past. This kit includes the big Joker Valve that is an essential spare for cruising.

Kit / Part number 29045-0000 00L

Weight 80gms

RIGGING / YACHT KNIFE ALL STAINLESS - NEW \$15

Classic riggers knife, all stainless with blade, poker and can/bottle opener.

Shelham Australia, made in Japan.

Weight 105gm.

LOUD ALARM – 12V – USE FOR WATCH, ANCHOR OR ENGINE \$25

This AUTOHELM alarm is very very loud. Perfect for a watch keeping alarm to wake you up, it could also be used for Anchor watch, or engine alarms. It is a basic 12v connection. It's water proof, provided you protect the wires coming out through the back. Weight 85gm.

FIRE BLANKET – LARGE SIZE – UNUSED \$8

1.8 X 1.2 mt fibreglass blanket in an easy to hang quick release bag.

Weight 1kg.

MANUAL TROJAN WATER PUMP – NEW \$20

Simple and reliable, ideal for sink side pumps especially if you want to have salt water handy at the sink for washing up with to reduce freshwater usage. \$29 in Whitworths.

Weight: 175gm

WIND METER – DWYER – DUAL RANGE \$22

Manual wind meter /anemometer that has two ranges. Complete with cleaning kit and instructions.

Weight 70gm.

PILE OF OLD BOUYS – GOOD FOR FISHING, TRAPS, ETC. \$5 EACH

What you see in the photos is what you get - flotsam !

MOORING BOUY – YELLOW – FOAM FILLED - QUALITY \$25

600mm long x 300mm diameter, foam filled so in the unlikely event it is holed or cracks then it will not sink but stay afloat so you can still get your mooring rope.

Weight: about 1.6kg.

MOORING BOUY – RED – RONSTAN – FOAM FILLED \$25

450mm long x 250mm diameter, foam filled so in the unlikely event it is holed or cracks then it will not sink but stay afloat so you can still get your mooring rope.

Weight: 900gms

MUIR DECK SWITCH FOR ANCHOR WINCHES \$25

Mounts neatly on the deck and seals so water can not ingress into the electrical components. Too much plastic in the new versions. These were built to last.

Weight 295gm.

FIREBOY-XINTEX CMD-3M CARBON MONOXIDE DETECTOR \$35

Computer-controlled CMD-3M is a CO detector designed for the harsh marine environment. Its capabilities include Time Weighted Averaging, which virtually eliminates false alarms. Its alarm signal is activated at 10% COHb. 12 VDC operation. Dimensions: 4"L x 3"W x 1.5"D. Current draw: 230 mA average.

This unit is 12V hard wired and does not use internal batteries. Weight 150gm.

HATCH STRUT – NEW – CHROMED BRASS & SS \$30

300mm when closed, 500mm when extended. Cost \$47 in Whitworths.

Weight: 540gm

ANCHOR – PLOUGH 12 . 5 KG / 28 LB – BIT ROUGH \$25

A well used galvanised plough anchor. Ideal spare.

870mm long x 330mm wide at plough tips.

ANCHOR – PLOUGH 15 KG / 33 LB – VGC \$50

A used galvanised plough anchor in very good condition. Excellent pick design that bites easily but is also easy to release. For boats up to about 11mt.

870mm long x 370mm wide at plough tips.

316 SS RIGGING IN VERY GOOD CONDITION \$ Negotiable

We have a full set of rigging off a large catamaran (approx 45 footer). It is all 316 stainless and was removed because of rigging changes every 5 years (a surveyed charter vessel for leisure cruising).

There are huge Type 2 turn-buckles and also some swageless fittings on the ends.
 10mm SS wires x 5 pieces - **SOLD**
 8mm SS wires x 6 pieces
 7mm SS wires x 3 pieces

OUTBOARD MOTORS \$ Various

Got a few in the shed that we would like gone. All work, some are in VGC some need a bit more attention for the long term.

4.5HP Mercury - short shaft. Runs very well. Would consider swapping for a long shaft of similar size.

4HP Mercury – Classic Mercury, built in a way they do not make outboards nowadays.

Johnson 9.5HP - Model 9R69S - Retro / Veteran motor. Starts well, but has a leaky gasket or oil seal on the lower case.

Johnson 5.5HP – Model CD-17 – Was only used in Fresh water in the inland lakes. Have not run it for several years so still need to dig it out of the shed & test it, but it used to be an easy starter and very quiet motor.

DECK WINCH – NON SELF TAILING

BARLOW No 20 – A great single speed winch, medium size, works well.

MORSE CONTROL CABLES FOR ENGINE CONTROLS \$15 each

Teleflex Morse cables. 3950 mm long. Nominal 75mm travel, in excellent condition.

- Stainless steel core wire
- Brass end fittings. 10-32 UNF threads
- 150mm minimum bend radius
- Fits directly into Teleflex Morse controls
- Wire strand reinforced outer jacket. Outside diameter - 6.7mm

Cost new in Whitworths is \$37 per cable.

Weight: 350gm each.

EXTRA LARGE DANBOUY – 4 . 6 mt \$70

A essential safety device for offshore sailing. If someone goes overboard, toss this over and the bright fluoro flag on top will be visible for a long distance. This makes returning to the spot much easier, especially if the water is rough and with white caps or big swells. Flexible fibreglass top, foam filled float in centre section, weighted alloy shaft on bottom.

I am having a new fluoro flag made for the top to go with it, the old one was too faded and as a safety item it should be very visible.

Cost new is about \$260.

Length 4.6mt
Float diameter 75mm.

LARGE DANBOUY – 3 . 3 mt \$60

A essential safety device for offshore sailing. If someone goes overboard, toss this over and the bright fluoro flag on top will be visible for a long distance. This makes returning to the spot much easier, especially if the water is rough and with white caps or big swells. Flexible fibreglass top, foam filled float in centre section, weighted alloy shaft on bottom. There is a small split in the covering on the foam buoyancy, it is cosmetic & not affecting the functioning of the unit.

I am having a new fluoro flag made for the top to go with it, the old one was too faded and as a safety item it should be very visible.

Cost new is about \$240.

Length 3.3mt
Float diameter 75mm.

DANBOUY BRACKETS FOR BACKSTAY \$40

316 Stainless. These bolt to the backstay and take any standard dimension Danbouy. Either of the danbouys we have listed will fit. It will work on backstays of 4 to 8mm diameter. One holds the base, the horse shoe one takes the float, the other unit takes the tip of the bouy where the flag rolls up. Weight: 690gm

HEAVY DUTY STAINLESS POLE FOR WIND GENERATORS \$200

2700mm long x 48mm outside diameter. This pole was for a Air-X wind generator. There are two different thicknesses for the wind gens, 25mm and 48mm diameter poles. This is the heavy version, it is thick walled (3.5mm) and is designed to withstand the rigours of offshore circumnavigation.

There are optional attachment points where permanent or temporary stays can be placed if it is used free-standing. Excellent condition.

The alu version of the pole sells new for \$550 alone (without stays). The stainless version is about \$850.

STAINLESS HOOK \$15

A well made stainless hook, suitable for holding ropes, floats, life rings or anything bulky. It is made from 1" diameter 316SS. It stands 200mm off the base. Base plate 60 x 60mm.

Weight: 300gm

BALL JOINT ENDS FOR MORSE /TELEFLEX CABLES \$12 each

Two available, SS Ball joint ends that screw on to the end of morse / teleflex cables for engine &/or transmission controls. Used but in great condition.

Weight: 40gm each

OLD OARS – HAND MADE - EXTRA LARGE BLADES \$50

These oars are classic old style with large blades, copper tipped. Ideal for the wall or classic vessels. They had been shortened to 1740mm by a previous owner. The blades are 145mm wide x 660mm long. Shaft diameter is 50mm. The oars are reasonably light for their size.

EDSON / RONSTAN STEERING PEDESTAL RAIL \$70

This fits the standard pedestals found on most yachts. It is 1" diameter SS 316 tubing. It is 1160mm high, 240mm wide (centre to centre).

It is in excellent condition.

Cost when new is \$302.

Weight: 1.75kg

STEERING PEDESTAL RAIL – EXTRA HIGH \$80

It is 29mm diameter SS 316 tubing. It is 1320mm high, 242mm wide (centre to centre).

It is in excellent condition. There are some drilled screw holes and a cable outlet hole on one aspect near the top.

Cost when new is \$370

Weight: 2.9kg

LARGE LATCHES FOR FLOOR BOARDS OR BIG LOCKERS

Chromed Brass. One NEW and one USED unit available. They measure 90mm x 60mm.

Selling the new one for \$35, the used one for \$20. Cost new is \$54 each.

Weight: ~ 600gm each.

PADDLES – PAIR – AUSTRALIAN MADE \$8 each

BLA paddles, 1200mm long, curved blade. As New.

ALVEY YABBY PUMP \$15

1 x Standard length, Stainless steel yabby pump. Works well, good condition.

A good one for cruising as it is not too long & stores easily.

KATADYN / PUR WATERMAKER – DESALINATOR \$280

We have a PUR Powersurvivor 35 watermaker. It is not complete. The motor was seized and removed, otherwise the rest should be serviceable. The watermaker & pump parts are made in Switzerland and are waterproof in design, the electric motor is US made and was not waterproof, hence the issue.

At about \$3500 new it is worth the effort to fix if you are cruising and on a budget. There are other alternatives to power the pump in lieu of an electric motor, just apply a bit of ingenuity and you have a cheap desalinator. The pump can be powered off the prop shaft by a belt, the diesel inboard or you could run a trailing prop just for turning the watermaker.

I would count on getting a new memberane for the unit, the old one may work but that is a bonus if it does. Replacement membranes can be sourced cheaply from the US online and delivered to Australia.

Along with the unit are some spares, plus some membrane preservative. Includes pre filter unit mentioned below.

PRE FILTER FOR WATERMAKER (included with watermaker)

US made pre filter unit with the important three way valve.

Weight 980gm

FYNspray WS3819 BRONZE WATER PUMP 3/4” \$70

This was fitted to the diesel engine in our last yacht before we did a motor upgrade. It is a generic 3/4” fitting FYNspray pump that fits many applications. It is in very good condition and so is the impeller. Has an easy to fit and remove 6” pulley. Spare impellers are readily available. These quality NZ made pumps cost \$431 without the pulley.

“These flexible impeller pumps have 2 self contained ball race bearing units. They are more compact than the plain bearing pumps, require very little maintenance (do not require greasing) and can run for longer periods at higher speeds giving greater output and less wear and tear on the pump. The pump body is manufactured from pressure gunmetal bronze with stainless shaft, 2 x ball race bearings units and flexible neoprene impeller.”

Weight: 2.54kg

REEF ANCHOR – HEAVY 4.3 KG \$20

Heavy duty reef anchor. Well made with heavy 10mm chain. The anchor measures 460mm long as pictured, about 700mm long if bent flat. The pipe in body is 50mm diameter.

You can not buy a heavy reef anchor like this in marine shops.

BRASS SCREWS & NUTS - LOTS – NEW

Restoring a classic yacht – well this is for you.

Assorted brass screws. No wood screws, they all have machine threads in standard imperial sizes. Each jar is one size.

Ask for more details.

CLOSED BODY TURNBUCKLE WITH SWAGED END - NZ MADE - 9/32. UNUSED \$30

For sale is a new Graham closed body turn-buckle with swagged wire terminal fitting. These are the forerunner to the Sea-Rig fittings currently sold.

Terminal end is for 9/32" wire, the clevis pin needed is 1/2". Made in NZ. Weight 848gms. This turn-buckle is unused, however it does have some tarnishing spots as it was carried as a spare for several years. There is no clevis pin included.

COPPER NAILS FOR OLD TIMBER BOATS – MIXED SIZES \$5

An assorted bag of copper nails, All are unused.

Weight 100 gms

SOLAR PANEL – CHAMPION \$10

Use to keep car or boat battery topped up, not enough output to charge batteries, just to maintain. Plugs into cig lighter socket.

Weight 876 gms

SAFETY RAIL SUPPORT FOR OPEN SECTIONS \$25 (1 remaining).

These are mounted on your deck either side of where you want to put an opening gate in you safety handrail/lifeline. The wires then attach to both sides but the rigid upright then provides support for the rest of the line while the gate section is opened (usually with pelican clips). These came off a GRP catamaran, but would suit any vessel. You may have to alter the attachments on the bottom to suit you specific application. 1" 316 ss Tube.

SAFETY RAIL SUPPORT FOR LARGE CATAMARAN \$25

This is mounted on the aft of a pontoon so you can fasten to your handrail/lifeline. The wires then attach to both sides but the rigid upright then provides support for the rest of the line. 1" 316 ss Tube.

TAP SET WITH SHOWER TAKE OFF POINT – NEW \$20

For hot & cold OR fresh & salt feeds. Chromed plastic body. Marine unit designed as corrosion free.

Weight 360 gm

STAINLESS HUDRAULIC OR FUEL FITTINGS – US MADE P.O.A.

I have hundreds of these marine fittings, they are great for hydraulic lines or fuel line. The photo is just a sample of some of the fitting shapes.

They are all NEW.

AIR-X MARINE WIND GENERATOR – SPARE PART \$25

This is a brush set that fits in the Air-X generators, the circuit board then mounts on top of this. It is a spare part ideal for cruising yachts that want to carry a back up. It is used but in very good condition.

Weight 116gm.

	<p>BINOCULARS \$60</p> <p>Carl Zeiss 8x30 – Jena No2 Mk11 LM353 Deltrentis 1287987 Case not original, appears to be Allied forces in origin. Binocular condition is cosmetically very well used, probably in battle in WW2, optically clear to look through. Been knocked around quite a bit. Has a name engraved on it but we can not make out the details clearly. 175W 130H 75D, 905gm in case.</p>
	<p>VINTAGE TRAILER LIGHT \$ Free if you buy something else.</p> <p>Have not seen these around for a long time, suit the collector or someone restoring an old vehicle. Red one side, orange the other side. Weight 190gm.</p>
	<p>ANTENNA – NEW \$ Free if you buy something else</p> <p>This is used to mount a wire antenna on an aircraft. However it can be used to mount a wire antenna from mast to a spreader on a yacht. Needs some antenna knowledge to install, it is a “ADF Sense antenna” for the tech savvy. Weight 66gm.</p>
	<p>GAS ALARM – LPG \$ Free if you buy something else.</p> <p>This LPG / Gas alarm was installed on our cruising boat when we bought it. We removed all the gas installation.</p> <p>It is untested & sold as is. If you buy something from us then you are welcome to this for free. Weight 195gm.</p>
	<p>OLD BLOCK – IDEAL FOR CLASSIC OR TIMBER BOAT \$12</p> <p>An old style block in very good condition, the sheave shows no wear. The body is made of a composite fibre material. Brass spindle, washers and rivets.</p> <p>Sheave diameter: 65mm. Weight 260gm</p>
	<p>PICK UP OR SENT BY AUSTRALIA POST</p> <p>If you are unable to pick up the items then postage is possible. Often the easiest way for items that are not too large, is to use a prepaid satchel. They come in under 500gm, under 3kg and under 5kg versions. They are a fixed rate to anywhere in Australia & have online tracking available included in the price. You can fit a lot of gear in a 5kg satchel, so see if you want to combine items to save on postage.</p> <p>Mick 0403782631 xcaddict@hotmail.com</p>
